C.2.2 Background and Experience

1. Please briefly present your organisation (e.g. its type, size, scope of work, areas of specific expertise, specific social context etc.).

ECTE – European Center in Training for Employment, is certified by the ministry of education as an educational center for continuous education CVET, as well as guidance for the employment center. The educational programs that ECTE develops and implements are targeting in the adaptation of the working force to the transformations of the technological, socio-economic and physical environment, the promotion of regional development, the improvement of the existing and the acquisition of new qualifications, and the exchange of experience and know-how in national and international level.

The main activity areas are the planning and elaboration of projects for the development of human resources, which integrate innovation and European dimension, are based on dynamic partnerships and pursue synergy and quality in results. The activity sectors are:

- Implementation of training programmes.
- Training material – training modules development.
- Elaboration of researches and studies (training need analysis, market researches) related to the needs of the labour market
- Planning and development of international European projects related to local development, employment, and social cohesion.

ECTE provides high-quality vocational education and training services and at the same time participates actively in the development and implementation of European Programs and Community Initiatives. In addition, provides comprehensive monitoring and evaluation services of the work and products carried out during the implementation of the EU programs.

The department for Educational methodologies and training of trainers in ECTE, is aiming at the exchange of experience and expertise on training, up-skilling trainers, through the identification of innovative training methods and training material development. This department is providing training to teachers of primary and secondary level of education. Department's institutional tasks are Research, Education, Knowledge transfer, Internationalization. Within this context, it is the Department's task to carry on research to study training processes, community relations, individual and group behavior and mental activity in both normal and vulnerable situations. ECTE thanks to the participation in many European projects, has gained substantial experience in curricula and training material development as well as for trainers.

Currently, ECTE is engaged in developing learning material leading in line with ECVET procedures for the certification of professional profiles in fields of entrepreneurship, energy, adult trainers and teachers in affective learning methods, accessible tourism and active aging. Owing to the participation in a plethora of European projects, ECTE has gained significant experience in developing and implementing dissemination strategies, and providing guidelines and support to all partners for all dissemination actions during the duration of the projects.

2. What are other activities and experience of your organisation in the areas relevant for this application?

ECTE provides high-quality vocational education and training services and at the same time participates actively in the development and implementation of European Programs and Community Initiatives. In addition, provides comprehensive monitoring and evaluation services of the work and products carried out during the implementation of the EU programs.

The European programs that ECTE is involved in are aiming at the exchange of experience and expertise on training, intercultural dialogue, entrepreneurship, and promote equal opportunities in education and employment.

Especially for mobility actions, ECTE has long experience in Erasmus plus as well as in IdA Integration through exchange (placements for vulnerable social groups like people with special abilities, single mothers, long term unemployed, youngsters), training institutes staff training.

ECTE is closely collaborating with a network of 350 companies in Crete region for providing work-based learning and in particular apprenticeships and shadow working – for both its national and international participants of training programmes. Especially through the Mobility projects implemented so far more than 6.000 international participants have been benefited.
